## Veterans Scandal **Explodes**

Effort To Reward Texas War Vets Erupts As State's **Biggest Defamation** 

AUSTIN, April 2 (A)-An effort to reward Texas' war veterans has exploded as the state's biggest scandal since impeachment of Gov. James E. Ferguson in 1917.

Investigators probing for evidence of wrongdoing under the state-financed 100 million dollar veterans land program have gone as farr as Illinois and Minne-

President Eisenhower, a native Texan, has said he is intensely interested in the situation Internal Revenue and U.S. postal

authorities are checking possible income tax and mail fraud angles. Former Land Commissioner Bas-

com Giles, one of Texas' top leaders in the fight over state vs. federal ownership of the tidelands faces trial April 11 on a charge of accepting a \$30,000 bribe in one land deal. He is under indictment on a charge of conspiring with a West Texas land dealer to commit theft of \$83,500 in state funds in another transaction.

Giles has filed denials of the state's charges and claims.

Giles was chairman of the Vet eran's Land Board, and was originator of the soldier benefit plan He resigned as land commissioner when he refused to take the oath of office after reelection to his 9th term in November.

Ex-officio members of the board administering the program were Gov. Allan Shivers and Atty. Gen. in 1952—the second time in history Country Club. Shepperd is a potential candidate meeting.

as governor have kept him from lution committee the group adattending Veterans Land Board meetings at which some transactions now under scrutiny were approved. He has urged that wrongdoers be prosecuted to the full extent of the law, and recommended legislation for additional prosecutors to press the investigation. For Election Shivers has protested the system under which he acts as ex-officio member of many boards.

It is called "Rock 'n Roll." But just what is it? No use to ask a teen-ager. His mouth simply falls open, a glassy look comes into his eyes, and his body begins to undulate like an earthworm with the stomach ache.

So I went to Mindy Carson for an answer. Mindy, a vibrant young blonde who once earned \$60 a week selling candy and now earns \$4,000 a week up singing in supper blus, is tops right now with the teenagers. The latest of her 100 recordings, "The Fish," is creating a kind of epidemic among the Rock 'n Roll set.

"It's easier to feel what Rock 'n Roll is than to explain it in words,' said Mindy. "It's a kind of rythmic

"Like having money? That's a

"No, it doesn't feel like having money exactly. It's different." "Just what does it have that's so different?" I asked. "I'm getting a strange, confused, mixed-up feeling. Is that what Rock 'n Roll gives

"Not in the least," laughed Mindy. "Rock 'n Roll is a beat. It makes you want to dance."

"If you feel like you aren't tied down to anything. You can't lose the Rock 'n Roll rhythm, once it catches you. It pounds inside you. "It isn't as subtle as a pulse beat. Rock 'n Roll has even more

power. You really do understand it, don't you?' "Well, I have a feeling-" I be "That's it," said Mindy, pleased.

Sedalia, Mo.

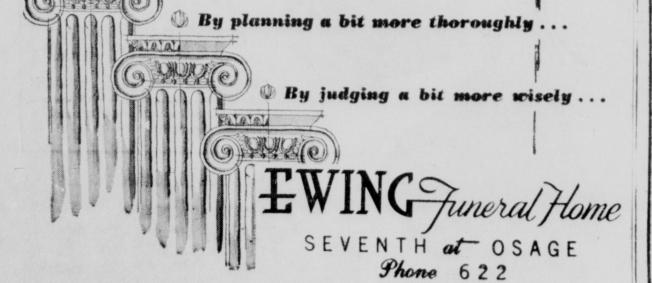

Palm Sunday

A sacred reminder to the Christian of his sacred duty to the great Creator.

THE SEDALIA DEMOCRAT Sedalia, Missouri, Sunday Morning, April 3, 1955

It's an international sore spot. Since 1946 U.N. members have put up 101/2 million dollars to reimburse U.N. employes for taxes. Virtually 1000 per cent of this went to Americans, although they make up only about half the secretariat. Other countries object to being

assessed for United States taxes. The difficulties began when the first General Assembly called on all member nations to exempt U.N. officials from national taxation. Most agreed. The United States has refused, on the ground that such exemption is contrary to national policy. In practice, the United States is the only country actually taxing its U.N. employes

On the assumption that all countries would appprove the exemption, the U.N. fixed salaries in the beginning on a tax-free basis. The U.N. in addition reimbursed Americans for their tax payments. Then there were complaints that this created separate standards. John Doe got a tax-free salary \$10,000 and his colleague, Ivan Ivanov got a flat \$10,000, the U.N had to put up perhaps \$12,000 for Doe while paying Ivanov \$10,000.

To avoid individual inequalities, the U.N. adopted a system of staff assessments. This works something like a withholding tax. It applies to all members of the

## House Divided 8 For Transfer To New Plot

The two Dunham brothers, Otterville house movers, recently tackled a job which took more than the usual amount of engineering. Raymond A. Potts, of Potts Construction Co., decided to build a new home on his farm a few miles north of Sedalia and put his old house up for sale.

The Dunhams bought the home and resold it to Alonzo Downs, owner of the Ranch House, a few miles away. Downs bought it to way 65 North about a mile south of his restaurant-home and sev-

eral miles west of the Potts farm. In contracting the job, the Dunham brothers had to remove the house from the Potts farm, building a foundation on the Downs lot, and placing the house on the

In order to do this, the house, built in an "L" shape, had to be divided into two sections for easier transportation by truck to the new location. They divided it a few feet to the right of the juncture of the two legs.

The larger section was then jacked up. They backed a truck bed underneath and then lowered the semi-house down on the truck.

It was then hauled by a circuitous route around country roads stretching the two-mile air distance to three or four times that long. After the Downs lot had been graded, the truck brought the first section over and it was carefully placed on a pre-set location with the front door facing on the high-

Heavy timbers were stacked in piles at strategic spots under the house. Jacks placed on top of the piles were used to lift the section off of the truck bed after which the truck pulled out.

In operating the jacks, extreme care has to be taken to keep the house level with an even strain at all points so that it does not slide or develop cracks. The workers handling each jack in unison, turning the jackhandles once at every call from the foreman like a coxswain with his crew.

The next step was to bring over the second half of the house and put the two together. However, the weather stepped in for about a week's delay.

When the second half finally ar- East Baptists rived, the workman had to carefully place it beside the first half on top of piles and jacks.

## New Decorations at Little Cost Pre-Easter Revival Held by Methodists

By KAY SHERWOOD NEA Staff Writer

New materials line up with the old-timers this year to make your Easter decorations brighter and gayer than ever. Colorful plastic tape and self-adhseive plastic fabric, for example, open up new possibilities for the amateur artist. So do newly designed Easter egg dyeing kits, which also provide the essentials for egg coloring, plus a drying tray and basket for the decorated eggs.

Something fancy, something simole; that's the rule for Easter decoations to delight and amuse famly and friends.

The "something fancy" could be an Easter egg cart, driven by the original egghead, Humpty Dumpty. This is easy and inexpensive to make. It adds dash to a dinner table, but will be appreciated just as much if displayed on the table in the picture window, where all the neighborhood children can see and enjoy it.

To make the cart you will need a small box, shirt cardboard, crepe paper, lace-paper doilies and clear and colored cellophane tape. Cut two egg shapes from cardboard. cover with pink crepe paper cut 1/2-inch larger than the egg. Tape crepe paper smooth and taut to the back. What a happy prospect for a happy hour!

Imagine, for instance, the marvelous rest and relaxation it will bring him.

He'll just sit there with his hands resting gently on the wheel . . . cradled by those deep, soft cushions ... and with the soft sound of the wind for a lullaby.

And insofar as his driving is concerned-well, what could be more restful! The car's every movement will be regulated by the merest touch of toe and hand. Steering, for instance, will be little more than a gesture . . . and braking will require only the gentlest pressure on the pedal.

And what a wonderful time it will be to think

and plan! For his mind will clear and his spirits will rise with each passing mile.

Yes, he's about to enjoy one of the finest hours of the whole twenty-four-and it may even be one of the most profitable!

In fact, many of America's foremost executives will tell you that some of their wisest business decisions have been made at the wheel of a Cadillac.

## S-C Tiger Tracksters Grab 7th Place Tie In State Indoor Track

## University City Takes Meet Crown

**Bengals Compete** Against 34 Other Missouri Schools

Saturday the Smith-Cotton Tiger thinclads won a tie for seventh place in the annual Class A Missouri Interscholastic Indoor track and field meet at Columbia which was won by University City high school. Only two Tigermen placed, but they were high enough to put Smith-Cotton higher in the standings than it has been in several

The two who qualified for the finals and placed were Bobby Case who won the 65-yard low hurdles and Charles "Van" Van Dyne, who placed third in the 60-yard

Eight of Sedalia's track squad got to make the trip, the other six failed in the qualifying events. Coaches Norman James and Forest Arnall were well pleased with the showing the Tigers in spite of their failure to qualify.

University City, paced by Richard Hammerstein who won the high hurdles and placed second in the lows, was pushed all the way by Sumner high school of St. Louis, and edged out the championship title 25 to 24 points.

Incidentally Hammerstein's 7.6 seconds in the high hurdles tied the state record. Hammerstein picked up 13 of his school's 25 points in placing first and second.

Three new records were made, Jim Sanders of Kansas City Central won the mile in 4:33.2; Jim Hoffman, Kansas City Northeast, cleared the high jump bar at 6 feet 1 13-16 inches; Clint Kelly of Kansas City Westport ran the 880 in 2:01.1. for the new records.

It was one of the closest meets held at the University in several years. Springfield was a strong third with 17 points followed by Kansas City East with 17, Kansas City Southwest 14, St. Louis University High 13, Smith-Cotton, of Sedalia, and Kansas City Southwest tied with 11 points.

Kansas City Central, Paseo of Kansas City, Kansas City Westport, and Ritenour all tied with eight points, Kansas City Rockhurst 7, Webster Groves 6, St. Louis Hadley Tech, Kirkwood tied with 5, St. Louis Beaumont 4, Independence William Chrisman 3, Kansas City Lincoln, North Kansas City, Raytown, Normandy, Columbia Hickman tied with two points each.

The Tigers' next meet will be Tuesday when the thinclads journey to Jefferson City to participate in a triangular meet with Jefferson City and Columbia.

## Sports Scraps

THE purchase of the Liberty Park Railroad by the 1 City two weeks ago has brought about nearly as much favorable talk as when the beautiful lighting system was installed three years ago. Especially among those people who have children and grandchildren who loved to take a "trip" on the road.

just how it will effect the Sedalia Park Board budget, but it should not be considered one way or another as to the budget. The train should take care of itself in paying the City back for the money expended for its pur-

This brings up a "pet peeve" of mine on finances for the park system. I might add it isn't any brain storm of any member of the park board and the files of Sports Scraps for any number of years back has carried the

Something should be done or if be necessary change some of the regulations on the monies. The Park Board budget is set up at the beginning of the year for certain improvements, operation of lights and so on, repairs which are necessary, and salaries. This is a must.

The revenue which comes from the park goes back into the general revenue of the city for which the budget does not get any credit. If the money for the budget is over spent they are operating in the red, regardless of how much or how little the rentals from the skating rink, the ball park, concessions or the convention hall brings in.

True, the budget is much larger by several thousands of dollars than it was only a few years ago. Yet on the other hand, look at our park system today. It is one of the finest any city in Missouri its size has. There are six parks today where but a few years ago there were only four. It costs more.

We now have Liberty Park, Hubbard Park, Housel Park, and Washington Parks, the four oldest, with an addition of Center and Vermont Parks. Something good has been done in

A S to the income from rentals, the money could be used to improve little things which come up and for which the budget didn't carry at the time it was set. The train could and possibly will pay itself out.

But if the profits made from it could go back into the equipment to improve on the rails, cars and even to landscaping of the area it would be something.

Money taken in from convention hall is turned in, but the light bill is paid out of the budget. That is the information I gathered from park board members of the past. I haven't discussed it with the present board as I do not care to place any member or members of the present board on the well known 'spot."

The same condition applies to the baseball park. However at Housel Park the Industrial Athletic Association has an arrangement with the Board whereby they pay the light bill there, pay the ground keeper and such. The skating rink is a leased proposition with a percentage being paid the board and this goes into the general revenue of the city. However the lessee takes care of necessary expenses on the building

as to lights and certain repairs. The swimming pool is self sustaining. The arrangement here is carried out like was during the days of the old swimming pool. The employees who are employed through the summer are payed out of the pool revenue and monies are constantly spent on repairs, operations and

> SEDALIA'S Number One baseball fan-Clyde "Pat" Patterson-is looking forward to Tuesday April 12, then April 14. He'll be doing considerable traveling back and forth across Missouri this summer for sureto see the Kansas City Athletics and the St. Louis Cardinals.

If Pat sees you on the street and he knows you are halfway interested in baseball, I'd almost bet 100 to 1 his first question will be, "Are you going to be in Kansas City April 12?" and follow it up with "or are you going to St. Louis April 14?'

I had always figured Leroy "Dutch" Kirchhofer as about the most ardent follower of the Cardinals, but in recent years he has slipped away although he maintained box seats for all the games.

But in recent years Pat has taken over the Number One spot in following of sports. He does not follow just one he follows them all. Football season, rain, snow or sunshine will find him at the University of Missouri. Baseball, well he'll go to St. Louis to see one game and stay the entire "home stay" of the Cardinals only to come back home when they hit the road.

"Oh, I'll go se the Athletics from time to time, but the Cardinals are still my boys," Pat told me the other night when he came out of the Fox theater. "The A's have got to improve a lot before they can win me over. I've been too long with the Cards to quit them now," he remarked.

direction and you desire company for the ride, call Pat, he'll be ready and willing. But don't depend too much on him coming back with you if its the first game. If it turns out to be a "hum-dinger" Pat is liable to say, "You don't mind if I stay, I think this is going to be a good series," and he will stay until its over and give you a play-by-play account on each

I took Pat with me several times last year to Columbia to the football games. During those trips he was a good passenger and I enjoyed every minute over and back listening to him tell of certain plays, certain games, and various players.

He knows the history of Sedalia way back. He recalls many incidents of interest around the town, business-wise sports-wise, and history-wise. He knew the early and oldtime prominent families. The youngsters who were in sports and the sports of the turn of the century. He enjoyed talking of the various sporting events of the early days and comparing them with today. He especially told how Sedalia supported sports then in comparison with

In discussing the sports of today he once told me, "I am not a youngster anymore. I have saved a little money and I know of no better way to enjoy myself than to spend it on sports events I like. I'm too old to work very much now. As long as I can have fairly good health for my age, I can get down to the ball games in the summer, the football games in the fall, and the picture shows in the winter, that's enough to keep me happy.

Pat's still pretty active, he never told me how old he is, but if I can keep going when I reach those years like he does, I know I'll enjoy the later years

# Complete and official figures show that again in 1954 - for the 19™ straight year -MORE PEOPLE BOUGHT CHEVROLETS THAN ANY OTHER CAR

# No other low-priced car even comes close

## to matching these important Chevrolet advantages . . .

If you're planning to buy a new car, the one you just can't afford to miss seeing is Chevrolet-for 19 straight years America's bestselling car. The Motoramic Chevrolet offers you so much more than the other low-priced cars that it's hardly fair to compare them. And even the high-priced cars don't have all the advantages that today's Chevrolet

The beauty's built in-not bolted on!

And that makes a big difference-not only in how your car looks today, but in how it will look tomorrow, too. Chevrolet's good looks spring from fine, clean design. The beauty is inherent in the basic contours of metal and glass. There's no excessive bolted-on ornamentation to go out of style overnight.

The Body's by Fisher!

No other low-priced car has a Body by Fisher -but many of the high-priced cars do. That extra special about the style, quality and construction of Body by Fisher. And there is! You can see it, feel it and even hear it when you slam the door.

Today's most modern engines!

That goes for Chevrolet's new V8 and two new sixes as well. For example, all Chevrolet engines bring you a modern 12-volt electrical system-double the voltage of other low-priced cars. This means quicker cold weather starting and a greater electrical reserve. Then Chevrolet's new "Turbo-Fire V8" has the shortest piston stroke in the industry, and develops the highest power per pound of any V8 in the low-price field. It takes valve-inhead leadership like Chevrolet's to bring you engines like these!

A drive to suit your driving!

You can take your choice of three different drives-and every one's as modern as this

(even better this year!), new Overdrive (both extra-cost options), and a new Synchro-Mesh transmission that's as smooth as they come.

All the power helpers you want!

Windows, seat, steering, brakes-all are available with built-in "muscles" to make driving as effortless as you wish. And you can even have air conditioning if you like. These things are extra-cost options, of course, but they more than repay you with extra pleasure.

Fun is "standard equipment"!

You find that out the first time you take the wheel of a new Chevrolet. Here, you discover, is a car that takes the curves like it's on rails, that steers like it's reading your mind. It seems simply to ignore bumps-and when you stop suddenly, there's no excessive lurching or diving, either. There has never been such a difference in low-priced cars as there is today or so many good reasons why you should drive fact alone tells you there must be something minute. There's silky, peppery Powerglide a new Chevrolet. Come in and take the key.

CHEVROLET SALES LEADERSHIP IS A VICTORY IN VALUE FOR YOU!

Isn't it logical that, since Chevrolet leads in sales year after year: Chevrolet must put more into a car than its competitors-more quality . . . more craftsmanship

. . . more style . . . more things to make your driving easier and safer and more fun. You have to do that to be the leader and stay the leader like Chevrolet! Because Chevrolet builds the most carsand can build them better to sell for less-Chevrolet sales leader-

This impressive entrance to Sedalia's Andrew Carnegie library is expected to come tumbling down on the front walk according to reports of one architect who inspected the building recently. The far right pillar is estimated to have dropped at least six inches and unless proper underpinings are built under the west section of the porch the portico is predicted to collapse. The \$60,000 bond issue that is before the voters Tuesday can provide funds to make repairs that are termed an emergency, if the building is to be saved from serious structural damage and ruin.

COLOR IS YOUR CUE - Blonde, brunette or redhead, there is a special color for you! When you wear it, you look your best, and feel your best. This doesn't mean however, that you should wear your "BEST" color all the time but it is important to know what it is and what it will do for you. In deciding what your color is try on dresses and coats in the various colors and you'll see what each one of them will do for you. Remember, however, that makeup is a very important factor in helping you wear some of the more trying shades. One hard and fast rule is this: If you're not feeling up to par or if you're having an off day-that is definitely the time to wear your best

Leave the shades that do less for you for your happy well days There are warm colors, cool colors, sick room colors and party colors-they don't mix well, so try to plan your wardrobe so i ors. .It is definitely time to decide on your spring wardrobe Some of your selections will carry on into summer — and I sugges you come in now to browse and shop, so your wardrobe dollar will be well spent and not a last ninute dollar thrown away.

## Omar Bradley 4 Finds Serene **Private Life**

By HAL BOYLE

NEW YORK (P)- Life holds a busy serenity today for Omar Nelson Bradley, who nearly ten years ago led American ground forces to victory in Europe.

At 62 the graying general of the Army, no longer assigned to active duty but still available to a bugle call, is holding down more jobs than at any time in his career.

The erosion of time has touched "Brad" but lightly. He is as erect as ever. He weighs 178 pounds, only five more than when he left West Point in 1915.

"But my wife, Mary, says can't brag about that-the weight isn't in the same places," he said

The five-star general stepped down as chairman of the Joint Chiefs of Staff in August, 1953. He ended then the 12 tensest years of his life-four spent on the battlefield, eight in Washington as veterans administrator, Army chief of staff, and the nation's top military chieftain

"I was glad to get out from under the pressure in Washington, Bradley recalled. "So was Mary. was afraid of a letdown.'

There wasn't any letdown. After for duty here as board chairman Nelson Bradley. No man could second or faster. of the Bulova research and development laboratories.

In Europe Bradley directed the attack of 1,200,000 men, the largest force under a field commander in American history. Now he supervises 43 defense projects, many requiring precision craftsmanship on tiny arming, safety and timing devices on secret guided missiles.

Summarizing the military pic ture today, Bradley said soberly: "We're not where we thought

we'd be 10 years ago when the war ended. We had high hopes then of peace for a long time to come. "But we have had to go on re

arming for our own protection, since Russia won't disarm, "I don't think many people to

"From reading those articles, I learned that roses will grow anywhere in the world where vegetation is possible," said Rev. Lindley, "and I also learned that I could have flowers in bloom throughout the year."

Following instructions, the reverend based all of his flower beds with about four inches of clay. He says that it is necessary to se clay as a base for his beds to retain moisture, and soil on the Coast does not hold water long nough, so it was necessary to ase the beds with clay."

Tuesday, April 5th.

# A TWO-THIRDS

necessary for passage-

BE SURE TO CAST YOUR "YES" VOTE!

# A Favorable Vote Will Not Increase Your Taxes

## NO CHANGE IN TAXES

We can meet our emergency and save our fine Library Building without an increase in taxes, since bonds for the municipal airport were retired in February of this year. The money formerly used to pay airport bonds can be diverted to the Library bond issue and a tax increase will not be required.

## \*60,000 NEEDED FOR REPAIRS

The picture above shows how the Sedalia Public Library is coming apart at the seams. To save the Library building, new footings and new piers must be put in. This repair is essential at this time because of the age of the building-now 54 years old-and because of the major damage caused by 1953 and 1954 drought conditions.

## TWO-THIRDS MAJORITY TO CARRY

You cannot afford to stay at home on Tuesday, April 5th, and let "Joe" vote to save the Library. Your vote, and the vote of all your neighbors, is essential because the Library Bond Issue must carry by a two-thirds majority. Remember, you can save our Library building without increasing your taxes!

## ONE OF THE FINEST PUBLIC LIBRARIES IN THE STATE

Sedalia's Public Library has been acclaimed as one of the finest and most beautiful Carnegie Library buildings in the State and Nation. We must preserve this attractive and much used building, so that we may continue to give all citizens first class library

## SERVES EVERYONE

Yes, the Sedalia Public Library serves all Sedalians. Over 81,000 books were issued last year. More than 3,500 persons per month viewed films issued from the Library. An average of 55 children attended the "Story Hour" each Saturday morning throughout 1954. Grade and high school students and teachers, as well as other citizens, use the library for research. Air Base personnel use and compliment this fine facility. Circulation in the Bothwell Hospital for patients is maintained. These are only a few of the services offered by this fine institution.

## SEDALIA LIBRARY BOARD TERMS CONDITION "DANGEROUS"

The Sedalia Library Board composed of C. E. Messerly, Jr., Miss Hazel Gray, Lawrence Barnett, Bob Overstreet, Philip McLaughlin, Lex Corley, H. L. Zoernig and Arthur Hoffman, as well as Mayor Julian Bagby, and the members of the City Council urge Sedalia voters to correct the dangerous condition which exists in connection with this building. ## ICC Throws Out **Federal Claims** On Railroads

WASHINGTON P - The Interstate Commerce Commission today hrew out government claims that he railroads owe it between two and three billion dollars in reunds on World War II military

The ICC found that the Justice Department had no basis for seekng such refunds. The railroads contended the government's warme rates were lower than those quoted for any private shipper.

The ICC action involved dismissal of 17 war materials reparations cases which, considered together, constituted the biggest money proreedings ever handled by the com-

The cases were brought between June, 1946, and October, 1948, by Tom C. Clark, then attorney general and now a Supreme Court

The Justice Department contendd that because of the huge volume military freight handled by the ailroads for the armed forces, the harges should be reduced to evels very much lower than those

FLYING FIRE TRUCK-something different in fighting fires is the aim of the Piasecki Helicopter Corp. of Morton, Pa. As an artist has illustrated the idea above, a specially designed 'copter could reach burning planes downed on mountainsides, in swamplands, forests or other places inaccessible to wheeled equipment. Rescue workers would be lowered to the ground while the flying fire truck hovers over the fire spraying an extinguisher from its crane-like front. Flames would be kept away from the 'copter by its whirling rotors. The manufacturer says it could be used in fighting fires in upper stories of high buildings. Note truck bogged down in swamp.

## George Gobel **Gets Contract At Paramount**

HOLLYWOOD (#)—In -previous years, the closest George Goebel ever came to movie work was when he was a touring night club

A theater magnate asked him, "Aren't you under contract to

"No," George replied. "MGM?"

"Well, I know there's interest there. And I'm sure it would help you if you appeared before our theater men's convention. You know, just bring along your guitar and sing a few songs. You don't have to do your act.'

Says George now: "That was my act - my guitar andsongs. This act - my guitar and songs. This clown controlled 104 theaters, but he didn't want to pay me for appearing. About that time I was making \$150 a week and could have used the money. I got that routine all the time - if Id just entertain the theater convention, they'd pu in a good word with the studio.

### Announcement **USMC** Reserves Status Cleared

Recruiter stated today that a recent directive from Marine Corps Headquarters, Washington, D. C., has clarified the status of Marine Reservists in relation to emergency recall to active military service.

Gen. Lemuel C. Shepherd, Jr., Commandant of the Marine Corps, stated in a directive released last week to the field: "Many reservists erroneously believe that membership in an Organized Marine Corps Reserve unit will increase their liability for call to active duty in time of a national emer-

Liability for call to active duty, the Commandant explained, is determined by the "mobilization liability category" established by Congressional law for all military reserve branches, namely, ready or standby reserve. Liability is not determined by organized or volunteer status

As a general rule, a reservist obligated service ahead o him (up to the 8 years required under the Armed Forces Reserve act of 1952) is placed in the Ready Reserve. Those who perform a total of five years in any combination of active duty or accredited training as a reservist will be transferred to the Standby Reserve. Basically, accredited training as a Marine reservist means membership in an Organized Marine Corps Reserve unit.

## A Vote Of Confidence, Too....

the proposals embodied in the school levy and the library issue up for their approval at the Tuesday, April 5, election, it won't be because they haven't been provided with abundant information about these projects the past six weeks.

Boiled down, the school levy is primarily to provide employment of additional teachers, increase salaries for present teachers and other school employees; the library bond issue is to obtain funds without a levy increase to keep the present beautiful building from falling apart.

As a matter of repetition, here is how the school levy shapes up:

a. \$1.00 Levied by the board.

- .20 Levied by the board for sinking and interest on present indebtedness of \$454,000. Reduced from 23c to 20c.
- 1.25 Proposed for approval at the April 5 election.

\$2.45 Total tax rate for 1955-56. 1.98 Present tax rate.

.47 Total increase.

The school levy requires a majority vote. The Library bond issue is for \$60,000 which will be used to repair this 54-yearold building damaged severely by drought conditions. A vote for this bond issue will not mean an increase in levy because the money formerly used to pay airport bonds, retired in February, will be diverted to the library bond issue.

The library bond issue requires a twothirds favorable vote.

Customarily the vote for councilmen and school board members receives major attention in the spring election. Many times

If any Sedalia voter is unfamiliar with in the past voters ignored levy and other bailots, tossing them away in the booth. But Tuesday every voter should resist this habitual impulse and mark every ballot received from the election clerks.

> Now, concerning the school levy and the library bond issue let it be said there is no hocus pokus about either project. Both school and library boards are composed of citizens of character, responsible in their obligations to serve the public. It is asinine to suggest either would indulge in chicanery or the diversion of funds to other purposes than what both boards have indicated they intend to do with the public monies delegated to their charge-to raise teachers' and employees' salaries, to raise other employees' salaries; and to rejuvenate and protect from disintegration a public building such as our

> The board members are on record. If we can't trust them, then there is no safety even among ourselves.

So let's go to the polls Tuesday and vote overwhelmingly with honest conviction for honest projects that add to the stature of a progressive community.

## Jimmy Roosevelt Defends Filling Stations

WASHINGTON-Congressman Jimmy Roosevelt of California uncovered shocking evidence this week of how gasoline stations are being manhandled by monopoly.

Roosevelt's Small Business Subcommittee probing the oil industry heard witness after witness testify about the ruthless trade practices of the big oil companies in forcing their products on gas stations. Result: One-third of the 200,000 operators who lease stations from the oil companies sell out each year.

Mrs. Ethel B. Powell told how she and her husband lost not only their filling station, leased from Sinclair Oil, but their savings and home in Fitzgerald, Ga. Describing the "pressure" of Sinclair

"They did not want us to sell candy, cigarettes, or chewing gum. The only drinks we could sell were Coca-Cola. They did not want us to handle oil from any other company, even though there was very little of this, just for special customers who would not use Sinclair oil but did use Sin-

The Powells were also pressured to get rid of all tires and tubes which Sinclair did not sponsor. "We were selling more Sinclair gas and oil than had ever been sold at that station before or since,' testified Mrs. Powell. "We tripled the stock and equipment of the station and raised the number

of employees from one to three.' Nonetheless, Sinclair cancelled the Powells' lease last Jan. 31. The Powells had to sell out

Standard Oil Crackdown

Another gas dealer, Ed Horton of Manchester, Ga., gave the subcommittee a graphic account of how he was "canceled out" by Standard Oil of Kentucky in January, 1953. Reading from notes, Horton testified that the following conversation had taken place with Paul Ross, a Standard Oil agent, on Oct. 23, 1952

Ed, if you're tired of it and dissatisfied with this station, why don't you just check out and get it over with?'

Horton-"I'm not dissatisfied. I'm just damn tired of somebody telling me what I can buy and what I can't buy and making unjust criticisms." Ross-"Youv'e got to move that Prestone out of the window.'

Horton-"What I buy is my business." Ross-"Oh, no, it isn't."

Horton-"Do you mean to tell me that I'm paying \$175 plus one-eighth of one cent a gallon a month rent, and what I buy isn't my business?" Ross-"That's right."

## Thirty Pieces of Silver

Thirty pieces of silver-in the hands of a faithless friend, Thirty pieces of silver-and an act he could not amend, Thirty pieces of silver - that gleamed in the shining sun And tarnished in his trembling hand after the deed was done. Judas, the traitor Judas, felt that his Master's power By a miracle could save Himself from the fate of that darkest hour, But the Master went so humbly after that unkind kiss, Judas, the blundering Judas, saw not it would end like this. Thirty pieces of silver-after the deal was made Thirty pieces of silver for the life of a friend betrayed. What were these pieces of silver, here in his moist, hot palm, Cold and hard and useless that could not restore his calm. Could not ease his aching heart, nor bring peace to his frantie

Thirty pieces of silver-but no solace could he find; Thirty pieces of silver-that could not be returned; For only with gruff laughter his plea for Jesus was spurned; Thirty pieces of silver? Where was his great desire? Here now in his possession they burned his hands like fire; Then on the floor of the temple he flung the coins afar, But he couldn't erase the taint from his palms, left they so deep

Thirty pieces of silver - are there no Judases still? Those who cheat and lie and steal, those who betray and kill Just for the tinkle of silver, lives that are based on greed? But lo, their words or kisses can never hide the deed

Thirty pieces of silver - for that did Judas betray And we shake our heads in wonder-but how do our own lives

There in the scale of judgment - how white are our sins on this? Thirty pieces of silver-a word, a deed, a kiss.
